## Route 46 at Hollywood Avenue

Contract No. TP-793

Fairfield, Essex County, New Jersey

### PROJECT TYPE

Construction Inspection

### PROJECT OWNER/CLIENT

New Jersey Department of Transportation

### CONTRACT AMOUNT

\$244,000 fee

### START & END DATES

8/2010 – 11/2011

### ROLE

Subconsultant to IH Engineers, P.C.  
Construction Inspection

### REFERENCES

Robert Brazer, NJDOT Resident Engineer  
(973) 703-9340

### PROJECT DESCRIPTION

The scope of this \$15 million project includes the realignment of Route 46 entrance and exit ramps; the reconstruction and widening of Hollywood Avenue; the construction of three new signalized intersections; the construction of retention basins; extensive utility relocations including telephone, gas, water and sanitary sewer; maintenance and protection of traffic; pedestrian safety and control; guide rail installation; retaining wall construction; drainage installations; and sidewalk, curb, paving and landscaping.

We provided field inspection personnel so the project complies with NJDOT specifications and contract documents. In addition, we assisted with review of contractor provided construction schedules.
