Family and Children Training Center, Inspection and Interior Renovations

Elizabeth, New Jersey

PROJECT TYPE

Design

CONTRACT AMOUNT

\$30,000 fee

ROLE

Prime
Interior Design, Cost Estimating,
Construction Support Services

PROJECT DESCRIPTION

We provided design and cost estimating services for the preparation of contract drawings for the renovation of an existing Family and Children Training Center located at 158 First Street, Elizabeth, New Jersey.

We met with the Housing Authority of the City of Elizabeth to evaluate their needs for the space allocation. Based on their requirements, we designed the interior space to accommodate a computer training room, offices, and child care facility. Renovations included carpet types, wall finishes, ceiling tiles, and other aesthetic features. Designs were based on the Uniform Construction Code and the International Building Code.

The design documents included drawings, specifications and construction cost estimates. We participated in the evaluation of the bids and made a recommendation to the Authority for selection. We provided construction support services, including limited construction management.

PROJECT OWNER/CLIENT

Housing Authority of the City of Elizabeth

START & END DATES

06/2007 – 06/2008
