New Jersey

### PROJECT TYPE

Construction Inspection

### CONTRACT AMOUNT

\$495,000 fee

### ROLE

Prime  
Construction Management  
Construction Inspection

### PROJECT OWNER/CLIENT

New Jersey Turnpike Authority

### START & END DATES

2013-Ongoing

### REFERENCES

Roger Payne, Project Engineer  
(732) 718-1994

### PROJECT DESCRIPTION

The scope of this \$2.7 million project consists of the installation of roadway safety features at thirteen (13) locations along the Pearl Harbor Memorial Turnpike Extension from Milepost P0.9 to P5.5 and twenty (20) locations along the Garden State Parkway from Milepost 6.5 to 168.4. The project also includes construction of berm surfacing, grading and associated earthwork activities, the installation of regulatory signs, and other miscellaneous work.

SJH is providing services including inspection of all work to ensure compliance with contract plans and specifications, inspection of all construction materials to be used at site to ensure compliance with contract plans and specifications, obtaining certifications of all manufactured materials, maintaining as-built information, and the preparation of as-built plans. Construction supervision services are all in accordance with the Authority's Construction Manual.
